What's New (User Facing)

- Profile Page
- Map View
- Swiping on pets
- Navbar
- Matching
- Messages Page

Work Summary (Developer Facing)

A lot of this time was spent navigating working with packages in react-native, as a lot of them do not play nicely. We did get very far as most of the app is now usable in just this sprint alone. We have an app that could be pushed to the app store and be functional, now we just need to polish for sprint 3.

Unfinished Work

We are going to be paying for an apple dev account so we can continue to build out the notification functionality as mentioned below, this will allow us to send notifications to users devices and possibly add in app purchases if we like. Most of the remaining work is just polishing the features we created this sprint.

Completed Issues/User Stories

Here are links to the issues that we completed in this sprint:

- <https://github.com/Nick2k4L/PetFriends/issues/15>
- <https://github.com/Nick2k4L/PetFriends/issues/5>
- <https://github.com/Nick2k4L/PetFriends/issues/22>

Incomplete Issues/User Stories

Here are links to issues we worked on but did not complete in this sprint:

- URL of issue 1 <https://github.com/Nick2k4L/PetFriends/issues/7#issue-2612341254>

- This issue could not be complete as we have not made an Apple developer account yet, which stops us from creating notifications when the app is closed.

Code Files for Review

Please review the following code files, which were actively developed during this sprint, for quality:

- <https://github.com/Nick2k4L/PetFriends/blob/New-Development/functions/functions/index.js>
- [https://github.com/Nick2k4L/PetFriends/blob/New-Development/PetFriends/app/\(tabs\)/Swiper.tsx](https://github.com/Nick2k4L/PetFriends/blob/New-Development/PetFriends/app/(tabs)/Swiper.tsx)
- [https://github.com/Nick2k4L/PetFriends/blob/New-Development/PetFriends/app/\(tabs\)/Profile.tsx](https://github.com/Nick2k4L/PetFriends/blob/New-Development/PetFriends/app/(tabs)/Profile.tsx)

Retrospective Summary

Here's what went well:

- Item 1
- Item 2
- Item x

Here's what we'd like to improve:

- I'd like to improve the time we spend on each feature, while also improving the quality of features we produce within the same sprint.

Here are changes we plan to implement in the next sprint:

- We will be faster for each feature so we can finish the project strong. We don't want to leave any of our planned issues out due to lack of time.
