## What's New (User Facing)

- Match Notification
- See views on your pet profile indicated by a counter
- Insert the details of your pet

## Work Summary (Developer Facing)

So far we have not accomplished anything during this sprint code wise, yet when it comes to outlining and diagrams we are doing a lot in that space. We made some progress, but we realized the technologies we were using for our app did not make much sense for what our objective was, so we decided to restart. Yet, we learned exactly what we wanted to do and how to work with some backend things such as databases. So far we are all trying to get on the same page and learn the new technologies of how to work a mobile app instead of a web app.

## Unfinished Work

So far all of our work is unfinished coding wise, but we are making progress to identify what to do. Our progress is around 25% for all the user stories, we are learning the technologies needed for a mobile app and getting everyone on the same page. Once we are all on the same page, efficient execution and progress will be made since we have a solid layout/foundation of what we want.

## Completed Issues/User Stories

Here are links to the issues that we completed in this sprint:

<https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=84724040&issue=Nick2k4L%7CPetFriends%7C8>

<https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=84724739&issue=Nick2k4L%7CPetFriends%7C9>

<https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=84724900&issue=Nick2k4L%7CPetFriends%7C10>

- Four more completed user stories can be found within the KanBan board.

## Incomplete Issues/User Stories

Here are links to issues we worked on but did not complete in this sprint:

- <https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=83988899&issue=Nick2k4L%7CPetFriends%7C4>
- <https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=84720690&issue=Nick2k4L%7CPetFriends%7C6>
- <https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=84721855&issue=Nick2k4L%7CPetFriends%7C7>
- <https://github.com/users/Nick2k4L/projects/2/views/1?pane=issue&itemId=83989710&issue=Nick2k4L%7CPetFriends%7C5>

All of the above user stories have the same reasoning on why they're not complete and the reason for this is because we are currently switching technologies.

## Code Files for Review

Please review the following code files, which were actively developed during this sprint, for quality:

**Not Applicable at this time**

## Retrospective Summary

Here's what went well:

- Diagramming and outlining went well
- Knowing what technologies we need and what to improve on
- A solid foundation and understanding of what we need to do for our project

Here's what we'd like to improve:

- Getting some code and starting to program what we actually need to do
- Getting everyone on the same page when it comes to technologies used

Here are changes we plan to implement in the next sprint:

- Actually something we can interact with
- A fully functional database
- Try to complete all user stories that have been listed
